Shop owner

1.Ui for -- Manage account report and Account History breaks in half at the top.

2.Commissions : calculations of monthly commision has to wait until
  The last week of the month's commision is entered.

3.Reports : when there is no report, the right up (review report breaks)the buttons to approve
  or decline don't show up they need a slider same as manage account report.

4.Account history needs a slider the button shows by half .

5.Remove product price from add products

MANAGER

Kindly explain why there are 2 buttons on the Balance account i.e SUBMIT & SEND REPORT

I noticed account history and alarms are still not working yet

Noticed the shop-owner and manager app are not communicating data yet there are some functionalities
i can't still test test
